

Scales' dividend policy is to target a dividend payment ratio in respect of each financial year of between 65% and 75% of underlying Net Profit subject to consideration of trading conditions and other factors.

It is the Directors' intention to declare interim and final dividends split approximately evenly and pay these in January (interim) and July (final). A dividend advice notice will be posted to shareholders or an email sent with a link to the notice at the time the dividend is paid. We expect dividends to be fully imputed.
