Our Staff

Our staff are the standout performers of Scales

- Indebted to our team for the hard work and dedication following the cyclone event: •
 - A larger than predicted recovery effort following Cyclone Gabrielle required extensive orchard remediation
 - Accordingly, our primary focus was on supporting our people and community with tailored assistance, wellbeing initiatives, medical checks and practical support
- Health, safety and wellbeing is one of our top priorities and continues to be a focus for our • everyday operations:
 - Mr Apple shifted to a Health, Safety and Wellbeing Partnership model, meaning more on-site support, proactive action and a reduction in its Lost Time Injury (LTI) rate of 43% since 2022
 - Supported by the ongoing use of an in-house Injury Management Specialist (physiotherapist) to work with
 - on-orchard and post-harvest teams on injury prevention and recovery
- Continue to partner with Pacific Island governments to develop RSE recruitment plans that meet the goals of both their respective communities and Mr Apple

Trends in Divisional Underlying EBITDA

Global Proteins

Horticulture

Logistics

Global Proteins – Performance

Solid results during post-COVID inventory rebalancing

•	Decrease in petfood ingredients volumes, revenue and Underlying EBITDA
	reflects:

- Petfood ingredient customers returning to lower, pre-COVID, inventory levels resulting in lower volumes sold
- Transition of Australian business and start-up phase of Esro Petfood
- Pleasing performance from Fayman, complementing our petfood ingredients operations
- Pleased to note that the FY23 profit margins were in line with FY22
- Revenue and EBITDA per KG sold have been improving over time with our strategic initiatives

Petfood Ingredients - Revenue and Underlying EBITDA / KG

* 2022 edible protein volumes are for a 2 month period

** 2023 petfood ingredient volumes exclude those sold at Meateor Australia and Esro Petfood, both operational by 4Q23

Global Proteins - Volumes Sold (MT 000s)

Horticulture – Performance

Commendable results given significant physical, financial and volumetric impacts of Cyclone Gabrielle

- Decrease in revenue and Underlying EBITDA primarily due to lower volumes
- Pleasingly, margins remained in line with 2022
- Continued increased focus on Premium varieties
- Strong performance from DazzleTM and PosyTM within the Asia and Middle East markets

Mr Apple Own Export Volumes (TCE 000s)

Movement in Premium Volumes (TCE 000s)

Horticulture – Remediation of Damaged Orchards

Evidence of the "fruits" of our team's hard work

Total planted orchard area currently around 1,100 hectares, approximately only 5% below the total area at the same time last year •

Logistics – Performance

Steady results delivered by the Logistics division

- Decrease in revenue and Underlying EBITDA:
 - Ocean freight volumes impacted by Cyclone Gabrielle and geopolitical tensions in key trade routes
 - Airfreight volumes in part affected by a slow start to the stone fruit season
- The division continues to bring extremely important strategic value to the Group

Balance Sheet

Scales continues to operate with a strong financial position

- Movement in Net Cash primarily relates to:
 - Capital expenditure (a significant proportion being Cyclone-related, principally in respect of the re-planting and grafting of trees)
 - Dividend payments (including payments to minority shareholders)
 - Investment in Fayman, Meateor Australia and Esro Petfood
- Group Return on Capital Employed (ROCE) affected by lower FY23 earnings

Financial Position		
\$m	2023	2022
Capital employed	441.0	445.7
Return on Capital Employed	10.8%	13.5%
Net Cech ((let event Decise Debt)	12.0	27.0
Net Cash / (Interest Bearing Debt)	12.0	27.0
Other Liabilities	(74.5)	(83.9)

Net Assets	384.9	391.8

 Capital Employed is calculated as non-current assets plus working capital (excluding cash, overdrafts and borrowings, dividends declared, derivative assets / liabilities and employee loans)

Net Cash Reconciliation (\$m)

Climate-Related Disclosures

Inaugural Climate-Related Disclosures (CRD) Report published

- Using 3 climate scenarios we undertook a climate assessment process across the 3 divisions
- The intention is that these will inform our strategic refresh as we continue to embed climate risk and opportunity into business processes, which will include group targets as an outcome of our Group strategic refresh
- Whilst we have not yet completed a standalone transition plan, we are already undertaking several transition initiatives which will address the climate challenges and opportunities identified in our CRD report

c. Business Update

Transaction with Bostock Group

Summary of the Transaction

Acquisition of selected orchard assets and remaining 50% of Profruit from Bostock Group

- Acquisition of ~240ha of planted orchard:
 - ~114ha of owned orchard
 - Assignment of ~126ha of leased orchard
- Strong geographical alignment to existing Mr Apple orchards and increased utilisation of postharvest infrastructure
- High concentration of DazzleTM plantings (\sim 110ha):
 - Accelerates Mr Apple with increased production, packing and export of DazzleTM
 - Acquired orchards also include High-Colour Fuji and Royal Gala plantings
- Premium fruit expected to represent nearly 80% of 2025 Mr Apple fruit sales (compared with 64% in 2023)
- Profruit to become a wholly-owned subsidiary of Scales
- Proposed sale of 2 orchards (Blyth and Te Papa) with a combined planted area of ~186ha:
 - Mr Apple's total orchard area is expected to be largely unchanged following the transactions

Other Impacts

The transaction is expected to contribute ~\$10m-\$12m p.a. to EBITDA over the medium-term, prior to orchard sales

- Profit contribution includes an increased share of Profruit earnings together with anticipated margins achieved by bringing the responsibility for shipping and marketing in-house
- Expected contribution is prior to the EBITDA impact from selling Blyth and Te Papa orchards
- The purchase price will initially be funded through a combination of debt and existing cash reserves:
 - Proceeds from the orchard sales will be used to retire additional debt raised
- The transaction is expected to complete in mid-June 2024: •
 - The Mr Apple orchard sales are expected to conclude in the second half of the year

d. Outlook

2024 Trading Update and Outlook

Pleased to re-confirm FY24 Guidance as previously advised of Underlying Net Profit after Tax Attributable to Shareholders of between \$30.0 million to \$35.0 million

Global Proteins

- Positive start to the year despite ongoing rebalancing of customers' petfood inventories
- Customer audits and approvals now complete at Meateor Australia, which was a significant milestone
- Strong performance from Fayman, increasing volumes across all major markets

Horticulture

- Harvest completed with total pick of ~3.9m TCEs:
 - Slower than expected recovery from the Cyclone and cold spring conditions impacted crop volume and fruit size 0
- Export packout rate of picked fruit expected to be in line with years prior to 2023
- Initial pricing indications are in line with expectations
- Shipping costs have reduced faster than forecast

Logistics

Higher volumes and channel mix has resulted in solid performance to date

Group

Overall earnings expectations for the year remains unchanged, although divisional mix may differ
